

TRANSFORM SAFETY COMPLIANCE INTO COMPETITIVE EDGE

Modernizing industrial safety through technology, training, and teamwork

Ritz Safety and S2RC partnered to modernize safety and workforce training for a large bottling manufacturer with 48 facilities and thousands of workers. Through QR-enabled procedures, interactive training, and Arc Flash risk assessments, our turnkey approach improved compliance, reduced downtime, and empowered teams.

S2RC'S FOUR MONTH RESULTS

01.
Plant Assessments
6 sites surveyed, baseline metrics set.

02.
LOTO Readiness
1,200 machines analyzed for compliance gaps.

03.
Procedure Modernization
"One step, one picture" redesign improved clarity.

04.
Energy Hazard Verification
Risks documented across all energy sources.

Visual-first procedures increased adoption and reduced training time.

COMPREHENSIVE SAFETY SOLUTIONS

Training Development & Delivery

- Online LMS + instructor-led modules.
- Topics: LOTO, Arc Flash, Confined Space, PIT, HazCom, & more.
- Built to OSHA, NFPA, and ANSI standards.
- Delivered in multiple languages.

Field Safety & Health Surveys

- Reviewed federal and state compliance.
- Audited Behavior-Based Safety (BBS) programs.
- Applied Human and Organizational Performance (HOP) Principles.

On-Demand Safety SMEs

- Fractional safety leadership and consulting.
- Site audits and corrective action tracking.
- Continuous cultural and compliance improvement.

SKILL POINT SYSTEM™ INTEGRATION

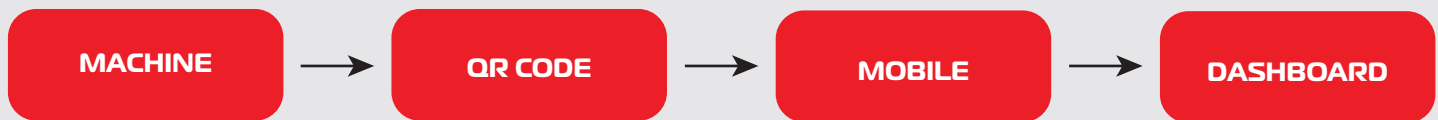

A scalable digital layer built for safety modernization and just-in-time learning.

Key Capabilities:

- QR code access to digital procedures and job aids.
- Streamlined annual updates and version tracking.
- Expandable to PMs, PPE, and minor servicing workflows.
- Mobile-ready instructional content for rapid upskilling.

How It Works

Skill Point™ turns frontline activity into actionable insights for safer, smarter operations.

READY TO SCALE FOR YOUR COMPANY

This turnkey deployment model is proven, repeatable, and rapidly scalable. Whether you're upgrading 1 facility or 50, Ritz Safety and S2RC can help you achieve higher compliance, reduce downtime, and modernize safety at every level of your operations.

Safety isn't a checkbox. It's a competitive advantage.
